

## HOW TO CREATE A PREZI

- Before you go to the website you will want to figure out what information you want to present and how you want to present it.
- The best way to do this is to create an outline where you have at least three main topics and then subtopics.

### EXAMPLE - TITLE

- I. Introduction
  - A. Background information
  - B. Thesis - hypothesis
- II. Results 1
  - A. Use quote from x
  - B. Use evidence from y
- III. Results 2
  - A. Counterargument
    1. What was expected...
    2. "But" or "And" this is what the survey proves...
- IV. Conclusion
  - A. Connect back to thesis
  - B. Answer the "so what" or "what now" question
  - C. End on a memorable note

- You can then transfer your information on a sheet of paper horizontally that might look like what your Prezi will look like.
